

KIDS GO ON AIR

Some eight broadcasts originating in Indian Head in the New Year will further the mental survey being taken in this district. Under arrangements made by Dr. John Cuming, psychiatrist, the radio programs will be sponsored by Indian Head Home & School Club.

A number of local children will form a panel with a few adults for broadcasts, and something lively is anticipated in "questions and answers" which the participants will undertake.

Just to make it interesting, the Home and School Club will offer one dollar for questions to be submitted by listeners.

Technicians will come from Regina for the weekly series of broadcasts, and all programs will be recorded here, saving trips to the city for people concerned. Each recorded program will later be broadcast.

Each program is scheduled for an evening hour, details of which will be available soon.
